Cost: \$5.00, suggested donation.

Milk*

***Everything you wanted to know
but were afraid to ask...**

Feed your brain and quench your thirst for knowledge at Pub Science Night! Enjoy fine local food and drink while our featured speaker, Dr. Rafael “The Big Cheese” Jimenez from the Dairy Products Technology Center at Cal Poly shares the unsung story of MILK. Dr. Jimenez is an internationally renowned Dairy Scientist with 20+ years of experience in the areas of dairy foods and milk biology and chemistry. He is currently the Senior Editor of the Dairy Foods Section of the Journal of Dairy Science and is a member of the Board of Directors of the American Dairy Science Association. His presentation will focus on the origins of milk and the remarkable structures that make milk the most important food for mammals. Rumor has it that following his presentation there will be a hands-on (well mouths-on) activity involving an assortment of fine Cal Poly Cheeses AND (if the stars align) fresh-made liquid nitrogen ice cream.

Come to Pub Science Night and find out!
