

This workforce solution was funded by a grant awarded under Workforce Innovation in Regional Economic Development (WIRED) as implemented by the U.S. Department of Labor's Employment and Training Administration. The solution was created by the grantee and does not necessarily reflect the official position of the U.S. Department of Labor. The Department of Labor makes no guarantees, warranties, or assurances of any kind, express or implied, with respect to such information, including any information on linked sites and including, but not limited to, accuracy of the information or its completeness, timeliness, usefulness, adequacy, continued availability, or ownership. This solution is copyrighted by the institution that created it. Internal use by an organization and/or personal use by an individual for non-commercial purposes is permissible. All other uses require the prior authorization of the copyright owner.

The California Workforce and Education Institute and California Space Authority's *New Space Professionals Working Group*, together have created a new and innovative program called the Aerospace Community Development Program.

The Aerospace Community Development Program is designed to create opportunities for current aerospace professionals to help attract young people to careers in aerospace and to enhance professional development for current aerospace employees.

The California Space Education and Workforce Institute (CSEWI) is a 501(c)(3) organization that works closely with its parent organization, the California Space Authority (CSA). CSEWI's mission is to inspire parents, educators and students to engage in California-based space-related education and to attract, integrate and retain a robust California aerospace workforce.

The Aerospace Community Development program is managed by CSEWI and is funded by CSA as part of the California Innovation Corridor "Workforce Innovation in Regional and Economic Development (WIRED)" grant from the U.S. Department of Labor through the California Labor and Workforce Development Agency.

For questions about WIRED and/or the projects listed in this brochure, please contact: Teresa Henderson, CSEWI, at 626.440.0565 or teresa.henderson@csewi.org.

E-Mentoring

New Space Professional Survey

Speakers Bureau

Space Space Blog

E-Mentoring

Correspond with a student aspiring to work in the aerospace industry using an Internet-based matching service. Based on an on-line survey that both students and mentors fill out, we will match you with a student, and after introductions and general discussion of expectations, you and your student will be able to communicate.

For more information on the E-Mentoring program, please contact Teresa Henderson, CSEWI at 626-440-0565 or teresa.henderson@csewi.org

Space Space Blog

The Space Space blog jettisons space culture to a whole new level through fun, quirky, creative and smart blogs. This series of blogs provides the opportunity for students and new space professionals to network and discuss areas of interest and importance to the aerospace industry; although, there's still plenty space just to have fun.

Speakers Bureau

The California Space Enterprise Speakers Bureau is an elite group of new space professionals with a passion and desire to inform the public on space activities in California. We are looking for individuals who are knowledgeable, able to bring presentations to life and inspire informative discussions with the groups they address.

For more information on the SpaceSpace weblog or the speakers bureau, please contact Randall Echevarria, CSA at 916-551-1543 or at randall.echevarria@californiaspaceauthority.org

NSP Survey

Participants in this survey will contribute to a national study being done on recruitment, retention and growth on inspiring the next generation of the aerospace workforce. We are interested in knowing what motivates or what motivated you to work in the aerospace industry.

For more information on the aerospace survey, contact Matt Everingham, CSA at 805-349-2633 or at matt.everingham@californiaspaceauthority.org
