Content	<p>Jobs for the Future believes that all young people should have a quality high school and postsecondary education, and that all adults should have the skills needed to hold jobs that pay enough to support a family. As a nonprofit research, consulting, and advocacy organization, JFF works to strengthen our society by creating educational and economic opportunity for those who need it most. Our Vision * All young people make a successful transition to adulthood. By age 26, they obtain a strong high school education and an advanced educational credential. * All adults have the education and skills they need to get and keep a job—and to advance in a family supporting career. * The nation has a workforce that meets the demands of a changing global economy. Our Work Through partnerships with states and communities, national and local foundations, and other organizations, JFF accelerates opportunities for people to advance in education and careers through: * Research, analysis, and policy development: We identify and address the challenges that prevent many people from succeeding in a family-sustaining career. * Practical, on-the-ground projects: We develop effective models for helping youth and adults acquire the skills that employers require. * Advocacy, communications, and peer learning: We influence the policies and practices driving our nation's educational and workforce development systems. Our Areas of Activity * Creating Successful Transitions for Youth * Building Economic Opportunity for Adults</p>
